## No Small Change

*Helping you develop small groups that will transform your people & your church*

After leading many small groups and talking to numerous people about what affects their world the most, I have come to understand that marriage and finances are two of the highest on the list. Today I will share with you two small group resources that I have completed in marriage and finances.

**Marriage:** *"Laugh Your Way to a Better Marriage"* by Mark Gungor. This study will have you laughing hysterically while learning ways to better understand marriage and your spouse. Mark has a unique sense of humor and a clever way of assisting us in taking a deeper look at ourselves and areas that we can improve in our relationships with our mates. Laughter doing good like a medicine definitely applies in this small group study. When asked how this course had helped his relationship with his wife, one of our small group participants said, "This course accurately portrays the design difference between women and men. It has helped my wife understand the fact that sometimes I simply think about "nothing." You can visit [www.laughyourway.com](http://www.laughyourway.com) for small group and DVD

**Finances:** Dave Ramsey is the author of many financial freedom books and has become a household name. His course *"Financial Peace University"* has assisted over one million people in leading a debt free life. I never thought that I would enjoy sitting in a class on finances but his wisdom and humor made it easy to listen to and learn from. Classes run for 13 weeks and are approximately 2 hours long. Participants will watch a DVD, then share in discussion and have weekly homework assignments. The tools and techniques in this class have proven results and even though the work can be difficult at times, the success rate speaks for itself. Visit [www.dave Ramsey.com](http://www.dave Ramsey.com) for more information.

All of these resources can be accessed through the websites given as well as [www.amazon.com](http://www.amazon.com) and [www.dealoz.com](http://www.dealoz.com). Be sure to shop around for the best deal (I learned that in Dave Ramsey!). For any questions please contact [me](#)!
